culation, was referred.

HOUSE.—In the House a large number of bills were introduced and referred.

In the House, Mr. Maynard, from the Committee on Rules, reported a general amnesty bill, substituting for the iron-clad mous combination of the finest medicinal herbs on the continent of America, is accomplishing such cures of diseases which affect the stomach, the liver, the bowels, the kidneys and the nervous system, that the grateful masses have adopted it as their Standard Specific. The various rum bitters have gone down before this pure vegetable antidote, like ten-pins before a well-aimed ball. The people have at length passed, yeas, 141, nays, 29.

Mr. Farwell, of Illinois, introduced a bill to provide for cheap transportation between Chicago and New York. Mr. Knapp introduced a bill for the erec-tion of public buildings at Quincy, Ills, Mr. Burchard introduced a bill to divide

Illinois into three judicial districts. Mr. Cox asked leave to report a preamble

and resolution recognizing Cuban belliger-ency. Messrs. Hale, of New York, Kil-linger and others objected.

Mr. Cox withdrew his preamble, and moved to suspend the rules and pass the resolution. Rejected, 44 to 33—less than two-thirds affirmative, and the Speaker ruled that the resolution was not before the

Mr. Cox then asked leave to introduce resolution for reference to the Foreign lommittee, but objection was made, Mr. Hale, of Maine, from the Select committee on the Salary question, report ed a bill, repealing so much of the salary bill as increases the compensation of Vice President, Speaker, Senators, Repre tives, and delegates to Congress; revives ing to the pay of Senators and members that were repeal or superseded by the bill of the 3d of March, 1873, provided that they shall receive no mileage for coming to and from the present session, except actual in-dividual traveling expenses by the most direct route usual to travel; requires the Secretary of the Treasury to cover into the Treasury all sums that may remain undrawn, or that have been received as increased compensation, and which shall have or may come into his possession by

eturn thereof. Mr. Kasson, from the minority of the committee, submitted a report, which was signed by himself and Mr. Jewett. They declared themselves dissatisfied with the bill reported by the majority, and stated their reasons therefor as being.

First, That the emphatic and continued expression of the great majority of the American people in all forms that should influence their judgement against the in-

erease of salaries, should take the question of its repeal out of the field. Second, That the financial condition requires economy in disbursements from the

They recom-mend that all compensations increased by the act of the 3d of March, 1873, be reestablished at their former rates, subject to constitutional exceptions, except the franking privilege bill. The accompanying re-

port makes provisions to carry out these views.

Mr. Maynard gave notice of an amendment to suspend the salary bill during the Forty-third Congress, instead of repealing it. Mr. Poland gave notice of a substitute

After considerable discussion as to the disposition to be made of the bill, Mr. Garfield suggested to move the previous question, and put the bill on its passage. Mr. Kelly asked if the bill took effect from the first day of the present session, arguing that if it did not, it would place the

House in a worse position before the people than ever.
Mr. Hale said that the bill did not take

Dixon's American Graphite Pencils, FOR OFFICE, DRAWING AND SPECIAL USES,

A New Lead Pencil

Of the finest quality, and all grades, from the softest up.

The peculiarity of these pencils consists in their being uniform and reliable, soft, smooth, very black, holding the point in wear; the mark clear and perfect, but easily removed by the rubber; the lead tensations, the wood old and soft, the finish perfect; pleasant to use, they are wholly American, and no discriminating person will be without them after a trial.

Explanation of grade stamps (copyrighted) on Dixon's Graphite Polygrade Pencils:

S. "Soft".—For heavy work on son paper; or for directing parcels; too soft for the pocket or general use. S. M. "Soft Medium."—For general commercial or pocket use; very smooth. M. "Medium."—For the accountant's desk, reporters, banks, and all uses where a smooth, black pencil is wanted that will last well in fine work. H. "Hard."—For architects, civil charineers, draughtsmen, &c.; a very fine, clean line. V. H. "Very hard."—For the finest lines. All these grades yield easily under the rubber.

It must be remembered that different hands require different grades of pencils, the same as they require different pens. The "S. M." will suit some parties for the uses set down for the "M." and the "M." suit many hands for general use. We find that even Stenographers differ, some requiring a softer pencil than others. The "M." was specially designed for them, and suits the majority, as it does the majority of Accountants in Banks and Offices, but the "S. M." is popular for general use. Samples free.
